

Japanese Life Yasuo Kiyonaga

March 25 – May 29

This exhibition will feature one of Yasuo Kiyonaga's latest projects.

The pieces consist of portraits of Japanese people attached to wooden boards painted with acrylic paints. Three of them include mirrors, which are designed to make the viewer appear in the portraits. Each piece is an original, one-of-a-kind work of art.

We hope you will enjoy these works created with the unique perspective and passionate imagination of a Japanese artist.

Gallery Japanesque is a private photo gallery of Yasuo Kiyonaga, a photographer based in Tokyo, Kyoto, and Paris. He has been working on various works in both abstract and figurative art and experimenting with new art techniques using

wood and other 3D materials. This gallery is an art space where we exhibit and sell his unpublished works, as well as works that have already been presented in Japan.
